

TYPES OF CERTIFICATIONS OFFERED BY QICPL

Qmark International Certifications Private Limited (QICPL) offers certification under the following schemes:

1. National Programme for Organic Production (NPOP)

QICPL has applied for accreditation under NPOP, the organic certification programme administered by APEDA (Agricultural and Processed Food Products Export Development Authority), Ministry of Commerce, Government of India.

QICPL has applied specifically for the following scope under NPOP:

- **Crop Production** – certification of farms engaged in organic crop production.

Upon grant of accreditation, QICPL will provide certification services within the approved scope.

2. Participatory Guarantee System – India (PGS-India)

QICPL is an accredited Regional Council under the National Centre for Organic and Natural Farming (NCONF) and provides PGS-India certification facilitation to local groups and individual farmers across India.

3. Natural Farming Certification System (under NCONF)

QICPL also facilitates certification under the Natural Farming Certification System (NFCS).

*For details of the certification process, fees, rights and obligations of clients, please refer to the other documents available under the **Public Information tab** on this website.*
